

# Insure your competitions for cancellations out of your control

Competitions are exciting for all those involved in rowing. British Rowing wants to ensure that organising committees know what the options are for insuring their competitions.

Your competition affiliation to British Rowing affords you liability cover for organising and running your competitions. With an increase in requests for wider cover, including event cancellation, Marsh Sport is pleased to introduce a new cancellation cover add-on for affiliated rowing competitions. Some things to consider in relation to cancellations:

- **Do you know what insurance you need for your event?**
- **Have you considered the potential risks or unexpected challenges that might come your way?**
- **What plans do you have in place to cover your competition against adverse weather, unforeseen circumstances, or even national emergencies?**

Whether you have the answers or not, being aware and understanding the risks is vital to the success of your competition(s).

Marsh, a global leader in insurance broking and risk management, are the appointed broker of British Rowing and are here to support you.

## Here's how

Cancellation insurance policies can protect competitions' expenses and revenue should an event be necessarily and unavoidably cancelled, abandoned, postponed, or rescheduled.

**Get a quote for cancellation cover designed by Marsh and British Rowing with affiliated competitions in mind:**

## Types of cover

Adverse weather

Single or multi competition risk

Acts and threats of terrorism

Competition money

Competition cancellation
